THEATRE COMPANY 2016 - 2020 // www.workinprogresschp.com

Actor, Artistic Director, Producer and Co-founder of Work in Progress CPH. A creative collaboration producing plays, web-series and education through art.

Most important work: A funded and “free for all” **national theatre tour addressing what assault from the victim's perspective has to do with everyday communications.** Shedding light on the human consequences of abuse. Creating a greater understanding of the victim's position in general.

1500 students were invited into theatres all over Denmark to **watch “Blottet” followed by a physical workshop about everyday communication and boundary setting.**

Before and after the play students worked with **WP CPH's school materials** and completed a complex questionnaire about behaviour, boundaries and sexualised abuse. All subsequently collected in a **50 pages final report and short film.**
